

Join us in research on *typical development and Autism Spectrum Disorders!*

The McGill University PoP Lab is currently conducting studies on cognition and language with children.

Who?

If your child fits into any of the criteria below please call us to find out for which study he/she may be eligible for!

- ★ 5-10 year old English-speaking or French-speaking children with
 - *typical development OR*
 - *autism spectrum disorder*

- ★ 5-10 year old bilingual children (French-English or French-Spanish) with
 - *typical development OR*
 - *autism spectrum disorder*

What is involved?

- ★ 1 or 2 visits at McGill University or your home (number of visits and location may vary depending on the study)
- ★ Your child will receive a small gift at each visit and transportation will be reimbursed (parking pass or metro tickets)!

Who can I contact?

Ana Maria Gonzalez, Janet Bang,
Student Investigators, PhD Candidates
Faculty Supervisor: Dr. Aparna Nadig

If you are interested in joining any of our studies, please contact us for more information!
