Autisme Montréal is a non-profit organisation that strives to improve the lives of individuals with an autism spectrum disorder (ASD) as well as those of their family members.

As part of its mission, **Autism Montreal** is called upon to intervene both socially and with people directly affected by autism. Through its many actions, we try, in particular, to make the whole population aware of the various issues related to ASD and to the diversity of these individuals, to contribute to research and development of skills in this field and then to support actions undertaken to ensure the defense of individual and collective rights.

In order to make a tangible contribution to the well-being of its members, **Autisme Montreal** also offers them a wide range of services and activities.
